THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Mr Ewan McLean

Date received: 2/10/2008

I would just like to say that it is beyond debate that the north west of Sydney needs more and better public transport especially a railway line. Moreover the fact that the Labor area of Sydney in the south west receives a cash back scheme on the M4 and M5 while Liberal voters in the north west do not is discrimination at its worst and should cease.
