Name: Ms Jeanette Campbell

Date received: 9/02/2013

This nation was founded on Christian principals. How can you allow this to be changed for something that is pure sexual lust of people. The morals in this country are in decline thanks to the greens and people who just want everything for themselves think of the children it's bad enough now with the ours theirs and mine families as well as 2 fathers or 2 mothers Do we need a generation that don't know who or what they are. How can you vote for something that creates such emotional turmoil for future generations vote NO to same sex marriage for the sake of our children in Australia
