**Summary**

Dear Committee Members

We are the Casey Family of

, and our family consists of 5 adults and 2 small children. We live on 220 acres of coastal farmland on which we graze approx 100 head of beef cattle.

We are situated within the extended study zone for the Tintenbar to Ewingsdale Highway upgrade. Our wish for this inquiry, is the decision to keep the existing highway and the upgrade, to follow the original route and not create a new corridor which would in turn destroy the amenity of this whole farming community and the lifestyle of everyone from the ridges down to the flats.

We support the Summerland Way option being suggested by the Summerland Way Action Group for its upgrade in preference to the Pacific Highway as the direct Sydney to Brisbane Freeway

Thank you for the opportunity as residents of this beautiful coastal region, to have a voice in this inquiry.
