## INQUIRY INTO GREYHOUND RACING IN NSW

**Name:** Name suppressed

**Date received:** 6/11/2013

---

Partially Confidential

First and foremost, greyhound racing should not even exist. It is cruel on a lot of levels, none of the 'owners' actually care about the dog or the well being of the poor creature all they see is money signs. As soon as the dogs injure themselves or can no longer run they get killed, this is absolutely disgusting and the sick people that allow this to happen need to be strung up. I am totally against dog racing and so are lots of others who are too afraid to step forward and make a point about it. I will not sit here anymore and watch a countless number of healthy dogs be put to sleep or killed inhumanly because they're no longer ringing in the millions of pounds the 'owner' wants. It should be banned completely, the dogs have feelings and their only flaw is that they love their poor excuse of an owner too much and will do anything to please them. I strongly hope you take my point into consideration at least.
