I have leased the Mairlimmy State Forest since 1987 in this time I have grazed this sparingly to keep the fire hasard to a mimium.I have also keep the weeds in control removed box thorns and burr,this has been in conjuntion with my farm which is ajoining the state forest.I feel that in this large time frame I have kept this area in extremly good condition and have maintained all of the swamp gum in this forest.I beleive this area is best managed by these proven methods.
