

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Philip Evans

Date received: 15/02/2013

I believe that the optimal family environment for a child during its formative years is to have both a father and mother. Both roles bring a unique perspective into the life of the child as it grows, and provide role models so that the child can appreciate the full meaning of gender in our society.

Sadly circumstances can prevent a child from having a mother and father, but to intentionally place children into a less than optimal situation by allowing same sex marriage would be a failure by our society to offer our children the best that we can.
