Dear Madam,

I wish to call for the cancellation of the ALP/Green Bill which established the Ethics Course in NSW Schools and state my support for the Hon Fred Nile's repeal Bill.

The reasons I have for this have been stated by many I have no doubt, suffice for me to say that I have always thought that 'Ethics' meant a moral set of standards with a definite line drawn of boundaries – right and wrong, not a set of philosophies which with indefinite self setting boundaries has been presented in the current Bill. Our children are confused and floundering because today the guidelines as stated in the Bible have been taken away and need to be restored.

Thank you for receiving my letter and giving it your consideration.

Yours sincerely,

Judith Thompson
