## Ungarie Central School – Primary Schools for the 21st Century

I am concerned parent of Ungarie Central School. Our Building the Education Revolution (BER) - Primary Schools for the 21st Century Program (P21) project is a New Hall/COLA which has approved funding of \$1,050,000.00, which is yet to be started, I believe through internet research Ungarie Central School is in the Riverina Round 3 Stage with a time line of September 2010- March 2011.

Before this project even “breaks the ground” by viewing details on the BER website - the figures shown in the ECS Stage, I believe that this project shows:

- No value for money
- No school community consultation at any stage of the project to date
- Waste of tax payers money if not delivering what is needed

Ungarie Central School BER project is at a stage where I believe it can be halted and have all the above issues rectified to avoid yet another unusable, unviable, overpriced structure in a NSW Public School under the BER.

I believe that with a project funding allocation of \$1,050,000.00 Ungarie Central School could have a very useful, viable and valuable resource in a School Hall if it is managed and used correctly and justly.
