**INQUIRY INTO PLANNING PROCESS IN NEWCASTLE  
AND THE BROADER HUNTER REGION**

**Name:** Name suppressed

**Date received:** 24/10/2014

---

Partially Confidential

The present ruling party in NSW State Government is the Liberal Party.

This political party has been shown to be corrupt in the Newcastle planning department which has led to many members resignations. There are some serious issues regarding the train truncation in Newcastle and the height limit of new developments being extended from a previous agreed height to an unacceptable higher limit. These two issues alone are of great concern to myself and others and we are calling for a halt to further considerations of these matters while the ministers, responsible for these decisions, are examined regarding corruption.
