Submission to NSW PARLIAMENT

Marriage: PROTECTION OR WHAT??

It is so sad that this submission has to be written at all. Marriage is the sanctity of a relationship between a man and a woman for the procreation of children to love, to nurture, to role model and to protect to be made to feel secure until they can go out on their own.

It goes without saying that gay couples CANNOT PRODUCE CHILDREN BIOLOGICALLY. If gay couples want to be in a relationship – fine – that is their choice but do not steal the sanctity of marriage. Why: marriage is an old fashioned thing called relationship between MAN and WOMAN, let's not redefine marriage because others want to make a stand and insult this situation by stealth and a very loud continuous nagging into a society that does not want to see what has worked from the beginning of all time.

If we continue to attack marriage where will it end? How about polygamy does that voice want to be heard also. Where will this lead us in the future? We saw marriage crumble when defacto relationships hit town and country. In fact, that was the beginning of where we are at this moment. STOP - STOP - STOP. Marriage does not need to be redefined. Civil unions for couples who want to commit to each other. Jane and Jan, John and Peter please keep this separate!!!!

Children must have protection from that which is NOT THE NORM. THEY HAVE TO HAVE A VOICE THAT PROTECTS THEM. They have a right to be protected and to have a voice on their behalf. They will be -

Unprotected

Vulnerable to all types of people - some not very nice

No choice in a role model

It is a child's right to have a **mother** and **father**

Marriage has been central to our society for as long as time began, protect our future generations: another change, another wedge into marriage =

CHAOS IN OUR SOCIETY!!!!
