## **INQUIRY INTO GREYHOUND RACING IN NSW**

**Name:** Mrs Emma Goodwin

**Date received:** 6/11/2013

---

Please consider that greyhounds are sentient beings that rely on us to do the right thing by them, which is making every effort to ensure that they live free from cruelty. This means at home & overseas, and I'm ashamed that we allow export of our dogs to markets such as Macau whose inhumane practices are widely know.

Please provide regulation so that those owners / trainers who care little for those animals in their care give pause to their treatment, but also find ways to make it easy for them to do the right thing, like working with racing's own GAPs & other rescue centres.
