

**INQUIRY INTO PLANNING PROCESS IN NEWCASTLE
AND THE BROADER HUNTER REGION**

Dear Sir

I feel the sale of the Newcastle rail line is another grab for money from Newcastle to support Sydney's budget. What happened to the money from a perfectly good 300 bed hospital and now the sale of our port!

I can't drive on buses because of motion sickness but enjoy train rides to Newcastle and then walk to Civic station then a train home.

Disabled people, push bikes, extra luggage from international tourists, all are points to consider before stopping the train. No tickets on buses it but available on stations. What is to happen to the station?

Another mess like our port office?
Please keep the line!! Neil Kennedy
