Dear Director,

It is disgusting to think that this type of inhumane treatment even occurs in Australia. I urge you to consider bringing far more strict regulations into effect, and harsher penalties for those who fail to obey. Please please please think about the innocent animals, we should not have a right to abuse and mistreat them simply because we are human. They have just as much of a right as we do to live a long and happy fulfilling life, free from pain, abuse and exploitation. They don't have a voice and so I beg you to speak for them.

Sincerely,

Kyla Woznyi
