

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

Since the beginning of time, marriage was created for a man and a woman, not two of the same sex. Marriage is for the procreation of children and making a family. We need to put a child's rights first, in government policy, and allow children to have the most stable environment; which ensures a strong community for the future.

Two of the same sex are not able to make children, hence, should what they do together be called a marriage? Companionship, loving a best friend, love for others can still take place without calling it "marriage".
