**Subject:** Submission - Just who actually are Hochtief and what is the role of the Macquarie bank???

Who actually are Hochtief ??? If you want to better understand how they and the Macquarie Bank work I suggest you might like to read some of these websites which focus on their role together in Sydney airport to understand just who you are dealing with.

NSW is being bled dry by these people and the Politicians who run our state and Federal Governments keep on doing deals with them. Why???? I would suggest you follow the money trail and you will find out just who else benefits from dealing with these merchants of greed.
