INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Joanne Hemers

Date received: 5/11/2013

Dear Director,

This is so cruel and just not right every animal has a right to live a cruelty free life they do not choose the the life they face and are trusting and faithful to their owners even when they are abused and treated badly. They are not expendable to the whims of people trying to make money at their expense, they feel pain. Stop this insane industry from encouraging gambling from people that can't afford it and animals that can't sustain the expectations. A better scenario would be to have a type of robot dog running around the track where the punter could still have a bet but at least a living being would not have to suffer at the expense of someone trying to make money.

Sincerely,

Joanne Hemers
