

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

I wish to add my voice to the number of people asking the parliament to protect marriage from redefinition. As a Christian I believe that a family is whole and working best when there is a mother and a father to nurture, be role models and provide a safe, balanced environment for their children to grow up in. The bias of same gender parents would influence the maturing child in their own choices. Many bisexual couples do not marry and society does not condemn them, same sex couples are just as accepted in society.
