

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Marriage is a Federal not a State responsibility, therefore any attempt by the State Government to change the Commonwealth Marriage Act to include same sex "marriage" would be unconstitutional. Marriage is a lifelong contract between a man and a woman for the purpose of procreation within a stable home environment and a place to nurture and provide an ideal situation for children to grow and develop to their full potential. To do this they require a father and a mother as role models.

Fathers and mothers, both have different roles within the marriage and home life, that provides a balance identity for children to emulate and aspire to.

Furthermore, marriage has since the beginning, has always been understood to be the union between a man and a woman, and is a God given responsibility.

So why follow the noisy voices of a minority whose desire I believe, is to destroy the family unit?
