

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

We have a couple of points for your consideration.

1. As this is an Australian Constitutional issue why is time being wasted on a NSW Bill that would be invalid.
2. A same sex relationship is not marriage. It can be called whatever people may choose but it is not marriage. Even change to legislation does not alter the simple fact.
3. One of the fundamental truths of marriage is that the commitment of a father and a mother to each other provides the best environment by far, for the raising of children.

We do not support same sex marriage. Thank you for your consideration.
