## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

I oppose the change to the marriage act to allow gays to marry. The family as a stable foundation for any society can only exist where a man and woman commit to each other in marriage. I suggest you study a recent objective study done in the united states on gay relationships. The evidence was overwhelming that the male/female marriage was the best for children and gay relationships were mostly dysfunctional and abusive to the children.

Put your energy into strengthening marriage not redefining it.

Thank you.
