I am worried that God would not bless Australia if we would not do things in line to His designs. The first President of America had even put "In God we Trust" in their monetary exchanges and they were blessed but now, they are going downhill is not a coincidence. Marriage should always be between man and woman.

Free to choice, love, we don't hurt anybody, etc are excuses and a clever deception by the bad forces. You are being manipulated and doubling up by justifying it as correct is a dumbest decision one can make.

Hopefully you do really care for Australia and just not because of political gain or self interest.
