To Whom It may concern

We all realise that NSW HEATH DEPARTMENT is very sick , in fact we can call it a TOTAL DEBACLE an inquiry is at the moment conducted , and the chairman is the Rev Fred Nile .

I am not here writing this message with the intention of taking the Health Minister side , nor I am trying to carry the banner for the feminist movement but lets call a cat a cat :

Ms Meagher has been the NSW health minister for less than a year , the debacle date of many many years , we did not reach such a state since early 2007 so who should be seated next to Ms Meagher facing the commission : THE PREVIOUS HEALTH MINISTER JOHN HATZISTERGOS AND AS WELL HIS PREDECESSOR MR MAURICE IEMMA

The story is always the same : " when the s.... hit the fan we appoint a women in the job to cop the mess " and the best of all that's the icing on the cake we appoint a man to direct the inquiry

Is this " the Australian way of life " that those men promote ? are Australian men that gutless ?  
In MY book If you make a mess you face the consequences  
SHAME ON YOU GUYS

Advance Australia BE FAIR
