Marriage recognises the committed union of a man and a woman to encourage the stable social context needed for resulting children to be raised to responsible adulthood.

Mothers and fathers parent differently, and children need both approaches in order to develop a balanced identity. That is why marriage should remain a union of a man and a woman.

We need our opinions and our strong belief to be heard as the changes to the law to support "Same sex marriage" will have a tremendous negative impact to my generation and many many generations to come including my children in the future with an absolute twisted view of what marriage is meant to be.
