**INQUIRY INTO SOCIAL, PUBLIC AND AFFORDABLE
HOUSING**

Name: Ms Jennifer Kent

Date received: 24/02/2014

In my role as school psychologist in the public system I am in contact with families who have to change their children's school because of high rents in the inner west. I have also witnessed the trend for more people to live in one house/unit not only two generations but members of the extended family.

Also I have a disabled brother who lives in Department of Housing accommodation. I do believe there should be a mixture of accommodation types in an area to prevent ghettos of disadvantage developing.
