

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 9/02/2013

Partially Confidential

I strongly oppose same sex marriage for many reasons, including:

- *The current definition of the family being father, mother and biological children has served society admirably for millenia - why change it?

- *Every child has the right to grow up in a family with BOTH his/her biological parents.

- *Children needs are best met with role models of BOTH genders within their family.

- *Children learn best how to relate to BOTH genders when exposed to both genders in their parents in the home.

- *Men and women bring different strengths to the parenting role, BOTH of which are advantageous to the development of a balanced identity in the child.
