INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Tom Stewart

Date received: 16/02/2013

As a Returned Serviceman, I believe in the democratic right for people to manage their own affairs. I am also a Christian, not a fundamentalist, however I believe that homosexuality is an aberration. Men and women are truly those who are necessary to propagate humanity. I believe that Homosexuality goes against the natural code of ethics, and I believe, the wishes of the community in seeking to promote "Gay" marriage as equal to that of man and women is wrong. The fact that many notable persons follow that lifestyle does not justify it as a proper life style or even a valid occasion to legally permit it to take place.
