## **INQUIRY INTO COAL SEAM GAS**

**Name:** Mrs Christine Crimmins

**Date received:** 31/08/2011

---

I have a small 25 acres in the southern tablelands. I object to coal and coal seam gas mining in all areas not just the southern highlands. There is high potential for environmental damage above and below ground from the mining and exploration process. There is disruption to people's lives and livelihood. CSG mining is not established as being a low carbon activity. Renewable energy should be the focus of our energy policy. Thank you.
