

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Mark Murray

Date received: 7/02/2013

To whom it concerns,

I would like to voice my disagreement on same sex marriage. Furthermore I would like to point out a number of issues I have with the NSW Government even considering something that is the responsibility of the Federal Government. Why waste further tax payer's money with a double up of what is already occurring in the Federal arena. Leave the question to the Federal Government.

Do not waste time putting out a questionnaire with loaded or simplistic questions. Ask the question directly after presenting the facts on BOTH sides of the argument. Facts only, do not present suggestions without basis using emotional language.

We will see in a number of years the full effect of same sex family upbringing on our children. Some will do OK, but who is doing the stats on success (depends what success is counted as also). Marriage is the ordained union of a man and a woman. Fact. This is presented by the God as one of His directions. It works and is the best way to operate. So says the Designer.

Males and females are different and have different emotional makeup, while I am the first to admit that heterosexual marriages are, in some cases, not perfect, it does allow the children to experience and see the difference between the sexes.

Why would a state even consider this? Are all states going to be different? That will make things quite clear across Australia wont it!

Regards,

Mark Murray
