

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

I am greatly in favour of same sex marriage being legalised in the state of New South Wales (and, indeed, everywhere else in this country). As a mum (and a bisexual), it saddens me that equality has not yet been granted. Hate and fear for something is not born- it is taught. If my daughter were ever to come to me and tell me she is gay, I would like to think that this religious orientated, outdated law doesn't stop her from pursuing a life that makes her happy. I have already seen the devastating consequences this can have on a single human being and on the community. Please end the inequality.
