## **THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR**

**Name:** Ms Lynnette Gorrie

**Date received:** 17/10/2008

---

I am a Hills resident who has a physical disability that prohibits me from using public transport ie buses and trains. I have a full time job in the CBD of Sydney which means I need drive into the city every day. It costs me over \$4500 just in tolls not to mention petrol, wear and tear on the car and sometimes over \$32 per day to park the car as the very limited 'disabled parking' or meter parking has already been occupied. If I lived on the M4 or M5 routes I would have my toll charges refunded under the 'Cash back scheme'. I consider I am being discriminated against because I live in the Hills district. How is this fair - please give ALL Sydneysiders a fair go and allow the Hills residents to claim the 'Cashback'
