

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name Suppressed

Date received: 6/11/2013

Partially Confidential

Greyhound racing, as a commercial profit-driven industry, is based upon the breeding of numerous dogs to exploit their natural speed, in the quest for a winner and monetary gain. The consequence being an early death for the majority of dogs continuously overbred in this breeding lottery and a distinct lack of empathy or regulation or transparency about the numbers of dogs dying for our public entertainment and pleasure. Financial gain is a poor justification for this breeding and killing of dogs to continue unchecked. It is for this reason that I oppose dog racing and believe there is no place for it in today's society
