INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Monica Pung

Date received: 5/11/2013

Dear Director,

In this day and age why is it acceptable to allow cruel practises against animals to exist. These poor greyhounds are SENTIENT beings and know love and understanding when it is given to them. However the government seems to think it is ok to treat these beautiful dogs in barbaric ways. Do you know what it is like to feel pain and fear. Be alone not knowing what is going to happen to you. Stop allowing all the cruel actions taken upon these dogs. I am so sick of everything being about money. One day the animals will have their justice upon humankind. Karma is just around the corner. At least a lethal injection is more humane. Stop the cruelty now, PLEASE for us and our grandchildren. We have 7 grandchildren growing up in a world of total cruelty against animals.

Thank You

Monica and Bruce Pung and 7 grandchildren

Sincerely,

Monica Pung
