

INQUIRY INTO NSW WORKERS COMPENSATION SCHEME

Name: Name suppressed
Date received: 10/05/2012

Partially Confidential

We would like to make a submission to support the MTA for the reforms to the NSW Workers Compensation Scheme

The system for us at present is really complicated on top of being very expensive. We are paying nearly 2000 per employee per year in premiums just to cover them and ourselves. This definitely impacts on us being able to employ extra staff and growing our business.

Between all the other expenses increasing e.g.: super, wages and taxes, it doesn't leave much for small businesses at all. The MTA are more experienced in our trade and understand the needs of the motor vehicle industry and could calculate our premiums more fairly instead of being such a broad based calculation.

Yours Sincerely
