

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Dear Parliamentary Committee,

There are many reasons why same sex marriages should not take place. Marriage is between a man and a woman. It has stood the test of time. Homosexuals could have laws which are somewhat similar, but please do not call their relationship marriage. If it is discovered in the future there are things married men and women should have but not homosexuals, (or vice versa) legal complexities could make improvements difficult if homosexual alliances are under the same laws as marriage. Just one of numerous reasons.
