INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Belinda Kerr

Date received: 31/01/2013

I believe same sex marriage should be made legal world wide - I don't understand why this needs to be made such a big issue, we should be able to chose whom we wish to commit our lives too. This is a free country where peoples rights should be listened to. The decision should not be based on race, religion, sex, personal opinion - marriage is about two people wanting to spend the rest of their lives together, no one should stand in the way of that. Everyone should be allowed to their own opinion but we should all be treated equal and given equal rights within this wonderful country we call home and this great plant we live on. If you wish to marry to one you love be that of the same sex or different you should be allowed and you should cherish and respect that person and that commitment you have made to the best of your ability.
