To whom it may concern,

The time is now, to put a stop to greyhound racing. For far too long it has been acceptable for thousands of greyhounds to be killed. This is 2013. We as a race as supposed to be intelligent, but where is that intelligence when it comes to greyhound racing. These are beautiful wonderful animals. Who sadly have been very let down by the human race and the greed involved. The time has come, the time is now to put a stop to a disgusting so called sport. These dogs live in terrible conditions, in concrete cages with no love or affection. The welfare of these beautiful dogs is in your hands. Imagine that: you having the power to stop such a cruel practice. Imagine having that power. The time is now to put this old fashioned silly sport behind us. Let greyhounds be dogs living lives in loving families.
