Summary

The Hon. Jennifer Ann Gardiner, MLC

Pacific Highway Upgrade Inquiry
General Purpose Standing Committee No4

I want to lodge my protest to the re direction of the Pacific Highway through the coastal route and Midgen Flat.

I know this area well as I spend a lot of time with my daughter, her husband and family who live at

Many families have built their homes and futures in this area because of its scenic beauty.

The soil is very fertile and they have been able to grow fruit and vegetables and take pride in their gardens. The area is also abundant with native fauna and flora. They will be shattered to have the life style they have worked hard for over the years taken from them.

Is it really necessary to alter the present route of the Pacific Highway, upsetting so many families? Please consider this when making your decision.

Yours sincerely

Betty Bolton
