I disagree with the submission of making our prisons privatised.

I am not educated / nor trained enough to be writing 'formal' submissions, but do NOT see this a problem for putting my 'vote as a citizen of NSW/Australia' forward against this move.

It is unfair and undemocratic to think that the average/normal citizen (Voter) would have to produce something so formal to express their displeasure.

It would not be fair only to have 'policy/submission writers or persons capable of such to cast their opinion..
