**Subject:** support for Lane Cove cycle way

---

Dear Sir,

I strongly support the cycle way on Epping Road as part of the Lane cove Tunnel development.

This is an extremely important part of the development for us. It will allow us to safely ride to work in Crows Nest as an alternative to driving. It will increase the amount of safe cycle ways for our children. It will encourage us to use cycles to access Lane Cove and Willoughby shops instead of using our cars.

I am very alarmed at the suggestion that the cycle way may be reconsidered.

I apologise for the lateness in this submission but I was not aware that the cycle way was being reconsidered.

Yours sincerely,

Colin Liebmann
