

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Sorrel Forman

Date received: 8/02/2013

I wish to emphasise my support for marriage equality. I want my children regardless of their sexuality to be able to marry the person they love.

As a parent, I want my children if they happen to be attracted to people of the same sex to not feel like there is something wrong with them. The lack of inequality in marriage law implies there is something wrong with that kind of relationship, and there isn't.

I want my uncle to be able to marry his partner of 10+ years in Australia near his family and friends, and not have to travel away from his home to have his relationship recognised equally to heterosexual relationships.
