INQUIRY INTO COAL SEAM GAS

Name: Mrs Shirley Everingham

Date received: 14/09/2011

I wish to make it known that My family does not want ANY Coal Seam Gas mining to take place anywhere. Our water and air quality are too important to risk for a very short term power supply. We are living in a false economy relying on mining dollars. Gas comes from the earth just like oil and coal. It cannot keep going. There is no point in super powers racing to the top to find there will be nothing at the bottom. Already leaking wells are being found in Northern NSW and Queensland. Stop the Madness.
