

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

My personal feelings on marriage equality:

I feel that as a society we have grown beyond many of our former traditions. I believe that marriage has been- and should continue to remain- a civil matter.

Therefore, I believe that as it is a civil matter, and not a religious one- there is no reason to restrict marriage to opposite-sex individuals.

Marriage should be accessible by all as a civil liberty. Same-sex marriage should be established as a state-sanctioned institution. Not one governed by religion.
