INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 11/02/2013

Partially Confidential

I am the proud parent of a gay son and I strongly support same sex marriage. I feel he should be entitled to the same rights as a straight couple. We have gay men and women in the military who risk their lives for this country. We have gay doctors and nurses who save lives and we also have gay parliamentarians. They are the same as you and I except they choose to love a same sex partner. I would love to see my son walk down the aisle and be able to marry the partner of his choice. I know of a couple who recently went to Iceland to get married, the sad thing is that marriage isn't recognized here.
