LEGISLATIVE
COUNCIL

1.9.11

Dear Sir or Madam:

Re: Threat to Southern Highlands from
Coal Seam Gas.

Please be advised that I am totally
opposed to any coal seam gas extraction
for any number of reasons, the chief amongst
these being water contamination; unknown
environmental damage; the amount of
damage ~~from~~ associated coal seam gas
infrastructure; "fracking" — dreadful!
And to add to these, wilful destruction
of our rapidly disappearing prime
agricultural land.

The industry should not be allowed to
access properties without owner permission,
and the law must be changed.

Yours faithfully
