INQUIRY INTO GREYHOUND RACING IN NSW

Name: Miss Tennille Hui

Date received: 5/11/2013

As a caring Australian, it must be made known that greyhound racing is outright cruel. Of course, the sport itself may not appear cruel since we glamorise the race itself.

What goes behind the scenes is another story. Bludgeoning, beatings, kickings, druggings, starvation. All methods to make the dog more profitable in the name of 'sport'.

Please do not ignore the issue of animal welfare during your investigation. It is a critical issue and one that can save the life of many greyhounds subjected to this cruelty.

Greyhounds are not a commodity. Just like your pet labrador, beagle or staffy, it feels pain. It needs companionship, and it needs a good home.
