SELECT COMMITTEE

SNOWY HYDRO

24th May 2006.

To the Inquiry into the Sale of the Snowy Hydro

My submission consists of my letter sent to all members of the NSW State Parliament also my letter to all members of Federal Parliament together with copies of their replies (only a percentage took the time to reply)

Included are newspaper clippings and other material that highlight the **outrage of the people!**

The sheer audacity, pomposity, lack of vision and a determination of most of the members of Parliament not to listen to the voice of the people can only show one thing – they consider the people as “vote fodder”.

We put them into power to LOOK AFTER OUR ASSETS NOT TO SELL THEM TO THE HIGHEST BIDDER!

To sell off the Snowy Hydro Scheme is an act of arrogance and defiance. It flies in the face of public opinion.

Governments are supposed to represent the people and listen to the voice of the people.

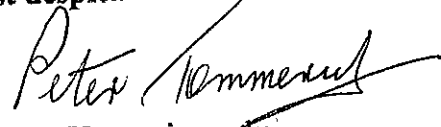

Thousands of people worked under very difficult conditions to build the fantastic Snowy River Scheme for the benefit of **all Australians**. We owe a great debt to these people. Their dreams and their pride in their achievements should not be dishonoured by such a contemptible, irrational **political decision**.

The proposed sale is possibly the most outrageous action by any Australian Government ever to be inflicted on the people of Australia.

Is nothing sacred!!

As stated by Bill Heffernan, this proposed sale has the capacity to bring the Governments down, and rightly so.

Should this sale go ahead our country will live to regret a most despicable act!

Yours sincerely,
