I am writing in disappointment that you are holding this review to look at logging+grazing in gazetted N.Parks. Toorale Np. would be the largest area of flood plain reserved in nsw. This area if allowed to recover,could bring back breeding populations of Bustards+Flock pigeons to NSW. Logging forrests would be another mistake.It takes Blackbutt trees 150 years to get holes large enough for most of the tree dwelling animals to survive. I feel this is a review that has no care for natural Australia, just self interest.
