I believe that Marriage is of Federal, NOT of State concern.

A man and a woman are biologically complementary and Marriage is the union of a man and a woman, which has existed and should still exist across cultures and religions.

Children have a right to be raised within their biological families, if possible, IE with a mother and a father.

Same-sex couples since 2009 have rights in law already and the majority of people do not want the word "marriage" to be used for same sex couples. (Choose another word!)
