INQUIRY INTO COAL SEAM GAS

Name: Mrs Glenys Hierzer

Date received: 7/09/2011

Please reconsider allowing csg mining in Campbelltown for the following reasons:

- Pollution is already high in the Campbelltown basin and this mining can only make it worse
- Our roads already cannot cope with the traffic upon them and we don't need large trucks being added to it.
- The Scenic Hills are a protected area and are an integral part of our city. We have always been promised they would not be built on but this is surely worse.

The question must be: does csg mining improve the quality of life in Campbelltown and/or add to its beauty and amenities ? The answer has to be no so why is it going ahead ?

CSG mining probably has its place, but not in a residential area which is trying to maintain its rural amenities. Please think again
