The Tottenham Central School CAnteen is a hideous waste of taxpayers money and is unworkable in its present form.

Regional Australia is just surviving as it is and in turn schools in regional areas are just surviving to waste \$600,000 on a building no bigger than a one car garage with no cooking or preparation areas and then call it a canteen is embarrassing.

How do you expect hard working battlers from regional australia whom save every cent they can to survive the current cost price squeeze which all small business are going through and then rub in there faces this gross waste of money. Tottenham is a small community with no big business in the district every cent earnt in the community is through small business and for them to see this gross misuse of money is disheartening in the least.

I look forward to hearing that this issue sees the light of day and is given the appropriate attention.
